

About Corporate Technologies

Corporate Technologies is one of the leading providers of managed IT solutions to businesses and institutions in Minnesota, North Dakota, Idaho, Southern California, West Michigan and New Jersey. With a breadth of services, multiple locations, and over 230 employees strong, Corporate Technologies is able to support their customers on a national level. It offers a wide range of IT solutions, including managed IT services, VoIP and PBX telephone systems, computer networking solutions, repair and warranty services, and systems integration and consulting.

Corporate Technologies' Technology Advantage® program provides a niche service for small and medium size businesses requiring IT support and services. In addition, Corporate Technologies' data center and online backup services bring highly secured managed services to our customers throughout the United States, providing business continuance for companies that require 24x7 uptime. Corporate Technologies has leveraged its 29 years of industry experience to gain many valuable certifications with leading manufacturers of technology hardware and software.
