Corporate Technologies, a leading provider of managed IT services for businesses and institutions, announces the launch of its new corporate Website for its business IT solutions. The new Website offers a Web 2.0 design with increased usability, updated content and an improved navigation system making the site easier for visitors to use and better aligned with the IT company's branding.

Minneapolis, MN June 23, 2009— Corporate Technologies, a leading provider of managed IT solutions for businesses and institutions in Minnesota, North Dakota, Idaho, Southern California, West Michigan and New Jersey, today announces the launch of its new corporate Website, www.gocorpotech.com. Featuring a fresh, new professional design, updated content and a new layout, the site serves as an information center for businesses and institutions interested in Corporate Technologies' services, the latest industry news, events and technologies as well as a portal to Live Remote Assistance for its current Technology Advantage® Clients.

"In addition to updating the look and feel of our Website, we wanted a site that would address the key needs of our perspective and current clients," stated Melissa Engle, Director of Marketing for Corporate Technologies. "We are delighted with the new look and functionality of the site and believe it will help us to establish a strong online presence that aligns with our marketing strategy and branding efforts," Engle continued.

With a breadth of IT services and multiple locations, Corporate Technologies is able to support customers on a national level and hopes the new Website will help the company continue to expand and further increase its client base, while also offer its current clients easier and more convenient access to its help desk, training courses, online seminars and other technology events. The Website was designed by Minnesota-based Internet marketing firm, TMA E-Marketing, who also optimized the site to drive targeted search traffic to the Website and help Corporate Technologies achieve a greater online presence.

Corporate Technologies offers a wide range of information technology solutions, including managed IT services, VoIP and PBX telephone systems, computer networking solutions, storage and virtualization solutions, IT staffing, repair and warranty services, and systems integration and consulting. Corporate Technologies' Technology Advantage® program provides a niche service for small and medium size businesses requiring IT support and services. To learn more about Corporate Technologies IT services, call 1-800-416-8271 or visit www.gocorpotech.com.
